REASONS FOR ALLOWANCE

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicants' submission filed on 4/1/2005 has been entered.

The papers submitted on 4/1/2005 comprise a pair of signed copies of a declaration under 37 CFR 1.132 from Dr. John T. Gray and Dr. Jeng-Shin Lee concerning data generated using one of the *gagpol* expression vectors taught in the instant application (i.e. pHDMHgpm2). The new declaration presents the same data originally presented in the declaration submitted by Dr. Gray in the papers filed on 3/17/2003. In addition, new technical matter is presented. For example, transfected cell clones that produced high levels of p24 were further analyzed for expression of HIV reverse transcriptase (RT), which is a processed product of HIV pol (e.g. page 4, 2nd paragraph of the declaration). The declaration states that in addition to expressing high levels of p24, a processed product of HIV pol, the chosen cell lines also express high levels of HIV RT (e.g. page 5, last paragraph). The new declaration also corrects an inadvertent error on the part of Dr. Gray in the old declaration where he indicated that the work done for the 3/17/2003 declaration was done in his lab or under his supervision. The new declaration, signed by both Dr. Gray and Dr. Jeng-Shin Lee, indicates the work was done in Dr. Lee's lab or under his supervision.

Art Unit: 1636

The following is an examiner's statement of reasons for allowance: the additional information presented in the declaration submitted on 4/1/2005, signed by both Dr. Gray and Dr. Jeng-Shin Lee, does not alter the conclusion that applicants were enabled for the packaging cells and methods recited in the allowed claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-3, 5, 7-10, 12-14, 16-18, 20, 22-25 & 27-29 (now claims 1-22).
